**************Welcome to Snake In My Campus**************
STORY :

I made this game in the memory of my first year in college. When I came to college in the
first semester I came to know that there were some snakes running in my campus between the
way of J and M block. There were some warning signs too indicating to move carefully and
watch out for snakes. It was a strange experience and a bit scary too. In the first year,
most of our lectures were being held in M block. So we had to go through that scary snake
path multiple times in a day in order to attend lectures. In my second year, the muddy grass
area was cleaned up and the problem solved but the memory remained in our brains forever !!!
So I tried to link that incident to this game :)

GOAL :
Your goal is to survive from morning to midnight in the campus by completing runs through that
scary snake path between J and M block. You need to make a total of 25 runs to win the game.
******YOU CAN ONLY MAKE A SUCCESSFUL RUN IN BOTTOM TO TOP DIRECTION else GAMEOVER******
On every 5 successful runs, the time will move forward.Be careful, because the snake's size
and speed will increase as time moves forward and night comes nearer.
They might change the directions too !!!

                REMEMBER ONCE YOU START TO RUN YOU CAN'T STOP !!!
                GAME OVER on collapsing with snakes or walls.

CONTROLS :      W-up            S-down          A-left          D-right
                8-up            5-down          4-left          6-right
You can see the score and time in the bottom of the screen.
        Have fun : )
